Bush Fire

Talking Matters

talkingmatters.com.au

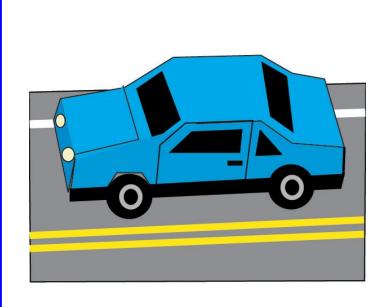

There has been a bush fire near my house.

I could see and smell the smoke.

To help my family stay safe we had to leave our house.

My family and I watched the news and saw the fires burning near our house.

We watched the fire fighters on the news helping to stop the fire.

The fire has stopped now, but some of the grass and trees around my house have been burnt.

It might take a long time for all of the trees and grass to grow back.

When I feel scared or confused about the fire, I can ask my parents to tell me what is Happening. I can ask my parents for help.

This way, I know what is happening and know that I am safe from the fires.
